MADERA SOSTENIBLE

Queremos asegurar la sostenibilidad de nuestros bosques.

SISTEMAS DE RECICLAJE

Tenemos implantado un sistema de recogida y reciclaje de residuos sólidos con el cual logramos mantener una eficiencia energética al procesar los desperdicios que se producen en la fabricación y transformarlos en energía calorífica.

Todo esto revierte directamente en nuestro proceso productivo y por supuesto en el medio ambiente.

**ECO
FRIENDLY**

Producimos nuestros productos ECOFRIENDLY utilizando un proceso especial que nos permite no barnizar la pieza logrando un gran acabado y a la vez obteniendo un producto respetuoso con el medio ambiente.
